

August 9, 2012

Mr. Senthil Kumar Murugan
110 Galway Circle
Chalfont, PA 18914

CCSU ID: 30049261

Dear Mr. Murugan;

Our records show that you have extended the six year as well as the two year extension time limit for completing your degree requirements for the Master of Science, Data Mining. All of the following courses are outside of the 8 year time period: STAT416, STAT521, STATE522, STAT523 and STAT580. However, I am willing to make an exception provided you complete all degree requirements by December of fall 2012 semester.

You will need to complete the Thesis in fall semester and apply to graduate to earn your MS degree.

If you do not believe you can complete your Thesis in the fall, you may request to change your program to the Certificate program in Data Mining. You also may wish to withdraw from the University. (I am enclosing these forms for your convenience.)

Please contact Dr. Larose to discuss these options before you pay the CREG fee of \$40 for the fall semester.

Sincerely,

A handwritten signature in cursive script, reading "Paulette Lemma".

Dr. Paulette Lemma

Assoc. V.P. Academic Affairs Dean, School of Graduate Studies

Cc: Professor D. Larose, Capstone Advisor
